

KEAlift AI Transition Accelerator

A Stress-Free Path to Modernizing Your Small Business

1. Executive Summary

Running a small business already demands every ounce of your focus. You juggle customers, cash flow, and an endless to-do list—while new technologies race ahead. KEAlift, BioKEA's AI Consulting wing, offers a Transition Accelerator designed to shoulder that burden for you. In just 90 days we install practical, battle-tested AI that clears your team's inbox, speeds up projects, and frees you to think about growth rather than firefighting. Most clients see the investment pay for itself in under six months.

2. Why Choose BioKEA

- **Time-Saving Automations** – Pre-built AI workflows handle everyday busywork (data entry, report generation, email triage), giving each team member back 8–10 productive hours every week.
- **Rapid, Measurable ROI** – Clear success metrics from day one; we won't leave until the KPIs move.
- **Zero-Headache Integration** – Cloud-based tools bolt onto your existing software; no costly hardware, no IT drama.
- **Human-First Approach** – We train and reassure your staff, turning tech anxiety into excitement.
- **Ethical & Secure** – Your data stays protected under SOC 2-aligned processes and GDPR-compliant safeguards.

3. Package Tiers at a Glance – Powered by Zapier

Tier	Scope	Ideal For	Investment*	Key Benefits & ROI
Intro	1-hour advisory sessions (Zoom/email) to troubleshoot or strategize Zapier use cases	Curious owners or ops leads who need expert answers fast	Hourly – ≈ \$200	Walk away with at least one immediately deployable Zapier zap; same-day productivity lift routinely offsets the fee.
Starter	1-week assessment delivering a prioritized roadmap of 1–3 high-impact Zapier workflows	Leaders who want clarity before committing larger budgets	\$1 – 2 k	Avoid costly trial-and-error; the first automated workflow usually pays back within 30–60 days—often > 2× ROI in the first quarter.
Pilot	Design + build of one production-ready workflow	Teams ready to automate a	\$3 – 5 k	Live workflow in < 3 weeks; frees 5–8 staff hours per employee

	dy Zapier automation, plus a half-day team workshop	single core process now		every week; 4× ROI inside 90 days.
Pro	3-month program rolling out multiple Zapier workflows across departments, with training & support	Growing businesses seeking scalable efficiency	Starting at \$6 k	15–25 % OPEX reduction and capacity equivalent to 1–2 FTE; average 6× ROI within 6 months.

Investment varies by company size & complexity; flexible financing available.

4. Our 6-Step Roadmap

- **Assessment** – We listen first—mapping your pain points, data, and goals.
- **Design** – Choose the simplest, most cost-effective AI tools for those goals.
- **Pilot** – Launch one low-risk quick win so you see value within weeks.
- **Integration** – Seamlessly connect AI into daily workflows and software you already use.
- **Training** – Hands-on sessions transform nervous staff into confident “AI heroes.”
- **Evaluation & Scale** – Track KPIs, celebrate early wins, then expand to the next workflow.

5. What You’ll Walk Away With

- Clear AI Opportunity Report (plain-language PDF)
- Prioritised Quick-Win List matched to your budget
- Plug-and-play automation scripts or chatbots
- Custom Prompt Cheat-Sheet for your team
- On-call support for 30 days post-launch
- ROI Dashboard so you can show investors or the bank exactly how AI pays off

6. Optional Add-Ons

- Regulatory Compliance Pack (HIPAA, GLBA, etc.)
- Custom AI Agent Development for niche tasks

- Monthly Support Retainer (from \$4k)
- Data-Lake & ETL Setup

7. 90-Day Sample Timeline

Weeks 1–2 – Discovery & goal setting

Weeks 3–6 – First automation live

Weeks 7–10 – Full workflow integration + team training

Weeks 11–13 – ROI review, next-phase roadmap
